### FINANCE AND TRADE.

OFFICE OF THE DAILY AFPRAL, MEMPHIS, June 28, 1870. The report of the Joint Committee of Conference in the Currency Bill as given | notify. by telegraph on yesterday's APPEAL, is corrons between the Senate and the House ideas on the currency, a concession to the National Bank interest and is as far from satisfying the wants of commerce or needs of the people as any measure that has yet been suggested. In the 6th section it repeals the \$300,000 in the currency act but in the first \$300,000 in the currency act but in the first \$300,000 in addition to the \$300,000 already issued. It also attempts to provides for \$45,000,000 in addition to the \$300,000 on already issued. It also attempts to provide for an equitable distribution of the currency but as we think absurdly, as that is something which cannot be taken away from the control of the same of power in that particular. If our telegraphic report is correct, this last measure will prove, with others, equally uncertainty that exists for taking this question of the country. It more than ever proves the necessity that exists for taking this question of the country. It more than ever proves the necessity that exists for taking this question of the country. It more than ever proves the necessity that exists for taking this question of the country. It more than ever proves the necessity that exists for taking this question of the country. It more than ever proves the necessity that exists for taking this question of the country. It more than ever proves the necessity that exists for taking this question of the country. It more than ever proves the necessity that exists for taking this question of the country. It is a consideration to the country and the proving the anything but satisfactory. It is a compromise between the Senate and the sons whose interests center in commerce and who, knowing what is wanted, will attempt to satisfy that want under a free banking system which is now gener- took at noon this day ....... ally believed to be the only panacea; for our monetary ills. Had Mr. Gurfield in- Memphis and Charleston R. R. sisted upon such a measure, and, as frepresenting the interests of the people and in their name demanded it, he might have | Wagons, est .... succeeded, at least he would have secured for himself the same amount of Memphis and Ohio R. R. eredit for sincerity as a servant of the people as that which now is accorded him as a servant of the giant monoply that centres the money interests of the country in Wall street, New York. What we want is not a currency bill but a free banking bill that will be operated under

Chamber of Commerce in the matter of direct trade with Mobile. We have nothing to lose but much to gain by a variety of outlets to the ses. Norfolk is the natural port for our European trade, Mobile for our West India and New Orleans for that with Mexico and South America. We learn from a gentleman familiar with the trade affairs of the "Gulf City," that the State of Alabama is about to expend \$2,000,000 in the improvement of the otherwise magnificent harbor of Mobile, and that only this is wanting to set such movements on foot ms will insues to her a higher place in the list of sea-ports of the United States. Under these circumstances, direct and unrestricted intercourse with Mobile becomes almost as desirable to Memphis as
